

AQA GCSE Combined Science (Trilogy) Results

Students studying Combined Science will receive an award worth two GCSEs.

These two grades will be displayed as one of 17 possible grade combinations, from 9-9, 9-8, 8-8, 8-7... to 1-1.

Double Award Course

8464	COMBINED SCIENCE	6-6 (six six)
------	------------------	---------------

If the combination of grades is such that the numbers are different then the highest grade will always be reported on the left.

The grade combination is determined by taking an average of all six Combined Science examinations sat during the summer exam season (two each of Biology, Chemistry and Physics).

In the case of the Higher Tier paper the 3-3 grade may be awarded if the student has narrowly missed the 4-3 grade.
